
RELEVANT JOBS FOR DS4A FELLOWS

The future of work is data-driven -- not just for the analytics org, but for all departments. Hiring data-literate employees throughout helps companies build a competitive edge.

DS4A Employer Partners have found success hiring fellows for roles in finance, operations, sales, marketing, strategy, engineering, and product. They hire for both entry-level positions and for mid-level positions, as many of our Fellows have prior work experience in these areas.

Common roles that companies recruit our Fellows for:
